# Description of Material

---

We are installing a 6 KW solar panel system at Mr. Mohan Lal residence. Below are the details of the components and services included in the installation:

1. **Solar Panels:** Adani TopCon solar panels with a power range of 560-570W.
2. **Mounting Structure:** The structure used is a GI (Galvanized Iron) structure from Jindal or JSW.
3. **Nut and Bolts:** All nuts and bolts used will be made of stainless steel for durability.
4. **ACDB and DCDB:** We are using high-quality ACDB (Alternate Current Distribution Box) and DCDB (Direct Current Distribution Box) from L&T.
5. **Domestic Meter:** The domestic meter installed will also be from L&T.
6. **Earthing System:** We will provide 3 earthing systems, each going 8 feet below ground level:
  - One for AC.
  - One for DC.
  - One for lightning protection

Additionally, we will install an electric shock arrestor for enhanced safety.

1. **Wires:** Havells wires of 2.5mm to 4mm thickness will be used for the wiring.
  2. **Required Documents:** The following documents are required for the installation:
    - Aadhaar card.
    - Electricity bill.
    - House tax receipt.
    - Cancelled cheque/ Bank passbook.
    - Email ID.
    - Phone number.
  3. **Subsidy:** A subsidy of ₹1,36,800 is available for this installation.
